The Bow Island Hardware Co., of which F. W. Brown is manager, announced this week the erection of a substantial building on Main Street next to the site formerly occupied by Willmott's hardware store. We understand it will be brick veneered and when completed it will have a very pleasing exterior.

A glance at our advertising column will reveal the fact that practically all our local advertising has been withdrawn. This has necessitated a reduction of the staff and a falling-off in the number of news published follows as a matter of course. It may be added that the whole of the work now falls upon the shoulders of one individual, whose time is so much taken up with work incidental to publication that it is an impossibility for him to spend very much time outside of the office. Under these circumstances, our readers will confer upon us a great boon if they will send or phone No. 11 when in possession of items of local interest.

Record Snowfall.

Farmers Elated.

The great fall of snow which occurred here on Saturday, Sunday and Monday last is something we often read as happening in Eastern Canada, but seldom do we have the pleasure of witnessing it in Southern Alberta.

Three days of continuous snowfall has soaked the ground thoroughly to a depth of fourteen inches, giving the farmers ample justification for their expectations concerning next year's crop.

Two feet of snow fell around Bow Island, and we hear that westward even more fell.

At Medicine Hat and to the east of that city more than three or four inches is recorded.

The snow is taking its time and is going into the ground in a very business-like manner, apparently quite determined upon its part to make amends for the disappointment created by the past dry summer.

Given a few weeks now of fine fall weather the ground will be in excellent shape to be worked upon, and the majority of our farmers are making preparations accordingly.

The amount of land which will be under cultivation in this district next year will be away ahead of any previous year, and great hopes are entertained that Bow Island will have the largest wheat crop of the province.

Will Canada Carry Her Burden?

GREAT BRITAIN AND EUROPE, where productive industry has been paralysed, have mouths to feed, bodies to clothe, constructive operations to carry through, and a thousand and one wants and needs to be satisfied—and Great Britain and Europe look to Canada in confidence for much of the needed supplies.

It were folly for Canadian manufacturers and merchants to be downhearted during these terrible times in Europe. A great burden—a great duty—a great responsibility—has been imposed on Canadian manufacturers, merchants, bankers and workers. Shall Canada and Canadians shirk this burden, this duty, this responsibility?

What's the Answer?
